Instructor: Dr. Daniel Freeman  
E-mail: dfreema7@slu.edu  
Office: 135 Ritter Hall  
Office phone: (314) 977-3637  
Office hours: Mon 1:00-1:50, Tues 1:00-1:50, Fri 11:00-11:50 or by appointment  

Class webpage: math.slu.edu/~freeman/142fall13.html  

Class time: 12:00:00 am - 12:50:00 am MTWF Ritter Hall 232  

Course description: Topics include a review of basic functions and an introduction to continuity and limits (Ch. 1); the concept of the derivative (Ch. 2); derivative rules (Ch. 3); applications of the derivative (Ch. 4); the concept of the definite integral (Ch. 5); constructing antiderivatives (Ch. 6).  

Grading: Grades will be based on three in-class exams (worth 45% total, you may replace your lowest exam grade with your final exam grade), a gateway exam (10%), a cumulative final exam (30%), and homework and in class quizzes (15%).  

Your letter grade will be given based on your numerical average earned in the class: you are guaranteed a D for 60 or above, C- for 70 or above, C for 73 or above, C+ for 77 or above, B- for 80 or above, B for 83 or above, B+ for 87 or above, A- for 90 or above, and an A for 93 or above.  

Calculator Policy: Calculators will NOT be allowed on exams.  

Online homework: Online homework will be assigned from each section of the text via the Web using Webwork: https://webwork.slu.edu/webwork2/FL13-Math-142-Freeman/  

Make-up policy: Your grade on the final exam may be used to replace a score on one other exam. Because of this, make up exams will not be allowed except in very rare circumstances. If you will miss an exam, you must notify me at least one week prior to the exam.  

Support Services: Students who believe that, due to a disability, they could benefit from academic accommodations are encouraged to contact Disability Services (314.977.3484 or disability_services@slu.edu) or visit the Student Success Center (BSC 331, www.slu.edu/success). Accommodation requests will be supported when I have received confirmation from Disability Services and when the student has discussed these accommodations with me after I have received that confirmation. If the accommodation involves extra time on a quiz or test, you must make arrangements with me at least one week before the quiz or test.  

Academic integrity: No cheating! In order to provide a suitable environment for learning, it is essential that students adhere to the standards of academic honesty described in the policy of the College of Arts and Sciences www.slu.edu/college-of-arts-and-sciences-home/undergraduate-student-resources/ academic-honesty. I am required to report instances of academic dishonesty to the Department Chair and the College of Arts and Sciences. If you have any questions about what rules govern any particular test or assignment, be sure to ask me for a clarification.
